

Hot/Cold Therapy & Clinic Supplies

Introduction

Chattanooga® is a leading manufacturer of rehabilitation equipment for treating musculoskeletal, neurological, and soft tissue disorders. For over seven decades, Chattanooga products have helped contribute to positive treatment outcomes in hospitals, clinics, and home settings worldwide. We strive to lead the rehabilitation industry by example, and through continuous innovation, provide real world solutions for clinicians and their patients.

As one of the leading brands in rehabilitation, Chattanooga is sold in over 80 countries worldwide. Chattanooga dealers, distributors and customers are supported by a seasoned team of personnel who oversee product development, product training and education, order placement, product delivery, after sales service, and provide dedicated sales and marketing support.

Chattanooga is a brand of DJO Global. DJO Global provides solutions for musculoskeletal health, vascular health, and pain management. Our products help prevent injuries, rehabilitate after surgery, injury or from degenerative disease, helping to enable patients to regain or maintain natural motion.

Please read complete instructions for use for all products prior to use.

Hot/Cold Therapy and Clinic Supplies

A leader in therapeutic products, Chattanooga offers a diverse selection of high quality hot/cold therapy and clinical rehabilitation supplies. Chattanooga is the proud inventor of the original Hydrocollator HotPacs and heating unit, a product that was first to market more than 70 years ago, and is still widely used by physical therapists and other medical professionals when using heat therapy. The HotPac generates deep moist heat which helps relieve chronic pain, acute muscle strains and general musculoskeletal discomfort. Chattanooga also raised the bar in cold therapy with the original ColPac, which comes in a variety of shapes and sizes. Chilling units are also available for convenient storage and cooling. For athletic training rooms and physical therapy clinics; carts, stools, lotion, and electrodes can all be ordered. Combining industry leading hot and cold therapy products with clinic supplies, Chattanooga can meet many clinics needs. Please read all instructions for use and any additional materials prior to use.

Theratherm® Digital Moist Heat Pack

Theratherm Digital Moist Heat Pack provides moist heat therapy for pain management. It's flannel cover draws moisture from the air and as the pack's temperature rises, the moisture is released onto the skin, speeding relief to your patients. Its unique, easy-to-use digital control is convenient.

Features

Theratherm Digital Moist Heat Pack

- Convenient preset time and temperature
- Digital hand control for operator to program and monitor temperature and/or treatment time
- Lockout mode protects against inconsistent setting changes throughout treatment sessions
- Moist heat therapy temperatures range from 88° to 166° F (32° to 74° C)
- Treatment sessions up to 60 minutes
- Specially designed flannel cover for efficient moisture retention
- One-year warranty

Ordering Information

Item# Description

Stabilizer™

9296

Stabilizer Unit
Comes complete with display gauge, pressure cell and instruction booklet.

Stabilizer™

Features

Stabilizer™

The Stabilizer Pressure Biofeedback unit gives valuable information to ensure quality in exercise performance and muscle testing. It allows the clinician and patient to determine if the patient is able to selectively isolate and maintain contractions of the cervical or lumbopelvic core stabilization muscles. The measuring range is 0-200 mmHg analog pressure with an accuracy of ± 3 mmHg pressure.

- Use with exercise to help stabilize joints
- Improve core stabilization exercises
- Enhance home exercise programs

Sully® Shoulder Support

Features

Sully® Shoulder Support

On the outside, elastic straps attach with hook to the neoprene at any point, in any direction, and with any amount of force you choose. You can functionally stabilize, assist or restrict movement according to the specific needs of each athlete.

On the inside, the perforated, breathable, rubber-like neoprene grips the skin so the support moves with the athlete. It's as if the stabilization straps are attached directly to the body.

The Sully comes complete with a highly adaptable, bifurcated neoprene strap, and two additional 4" neoprene straps. Worn by professional and amateur athletes in all sports! Measure biceps in a non-flexed position.
